ABOUT US

Serving African Science Since 2010

Ryonpoints Technologies Ltd is a Kenyan scientific supply and solutions company serving education, research, healthcare and industry across East Africa.

Established in 2010 along Duruma Road, Nairobi, the company opened its first outlet offering a wide range of products to customers in Kenya and across East Africa. Today, our operations span the region with a balanced, diversified product range.

We hold a leading position in educational, research and medical supplies, supported by partnerships with internationally recognised, ISO-certified brands and manufacturers.

Founded by **Alphan Muriithi** and **Maureen Mbutiti**, Ryonpoints remains a family-owned enterprise. Our founding mission was to make laboratory equipment, glassware and chemicals affordable to schools, most of which then had no laboratory and little access to materials because of limited market stock and high prices.

Over more than 16 years we have introduced new departments and branches, and our team has grown in numbers, skills and experience as we build a multinational company.

Head office	Gaberone Comfort 5, Nairobi, Kenya
Branches	Meru (Kenya) and Rwanda
Markets	Kenya, East Africa and international (online)
Sectors	Education, research, health, agriculture, security, manufacturing

OUR DIRECTION

Vision, Mission & Goal

Vision

To model our company into a one-stop scientific hypermarket, meeting every scientific need from a single trusted partner.

Mission

To provide affordable, quality laboratory equipment, glassware and chemicals to schools and institutions, so that every learner can experience practical science.

Goal

To continuously create high impact and value through science for the individuals, institutions and communities we serve, for a national and global positive transformation of lives.

CORE VALUES

The Principles We Work By

01**Client first**

We place our clients, and the users of our products, at the centre of everything we do.

02**People**

We value, reward and challenge our people.

03**Family enterprise**

We shape our future with a strong business spirit grounded in our family values and traditions.

04**Leadership**

We are committed to leadership in sustaining our business.

05**Performance**

We drive excellent, sustainable financial performance every day.

**SCIENCE MATTERS**

Our slogan is a daily reminder of the importance of science in everyday life. We look forward to a greater contribution to innovation and to more jobs for our young people, for self-reliance as a country, across the region and beyond.

WHAT WE DO

Six Divisions, One Scientific Partner

Ryonpoints serves the full spectrum of scientific need, from the school laboratory to the university research bench, the hospital and clinic, and the processing plant. Each division is led by specialists who combine deep product knowledge with world-class partnerships.

01

Teaching & Research

Laboratory equipment, glassware and chemicals for schools and learning institutions, at rates that respect their resources.

02

Laboratory Installation

Design and execution of laboratories: benches, gas, water and drainage, and fume chambers.

03

University & Research

Products for higher learning and research across analytical chemistry, biomedical engineering, microbiology and more.

04

Health

Medical diagnostic equipment, supplies and consumables, plus surgical and non-surgical consumables for hospitals and clinics.

05

Specialised Equipment

Solutions for agriculture, security and manufacturing, including support in setting up processing plants and industries.

06

Digital Department

An online shop and website delivering products to clients across Africa and beyond.

EDUCATION

Teaching & Research

Our **first and founding division**. Since our earliest days we have equipped schools, colleges and young learners with laboratory equipment, glassware and chemicals.

This gives them exposure to practical science and to modern research methods, at very affordable rates that reflect their limited resources.

- Laboratory equipment
- Glassware
- Laboratory chemicals
- Science kits and consumables

HIGHER LEARNING

University & Research

Products that meet the specific needs of higher learning and research. This division exists to help students and researchers meet their diverse requirements in their pursuit of innovation.

PRODUCT COVERAGE

Analytical chemistry

Biomedical engineering

Medical

Microbiology

Molecular biology

Physical & biological sciences

Mathematics

Engineering & technology

INFRASTRUCTURE

Laboratory Installation

The installation division was born when schools began converting classrooms into laboratories, and it grew rapidly with free education and government infrastructure support that drove laboratory construction across Kenya.

Our engineers and technicians provide world-class design and execution, with exacting workmanship that has made Ryonpoints a preferred solution provider in this sector.

SCOPE OF WORKS

Laboratory benches

Gas installation

Water & drainage

Fume chambers

HEALTHCARE

Health

Our youngest division, and a vitally important one. We supply medical diagnostic equipment, supplies and consumables to hospitals and clinics.

Our range also includes non-pharmaceutical products, among them surgical and non-surgical consumables and equipment for day-to-day clinical use. Supporting health practitioners and providers is a deeply fulfilling part of our work.

- Medical diagnostic equipment
- Diagnostic supplies & consumables
- Surgical consumables
- Non-surgical consumables

INDUSTRY

Specialised Equipment

This division identifies needs across sectors of the Kenyan economy and beyond, offering solutions in agriculture, security and manufacturing, among others. Government and private-sector partners work with us to set up processing plants and industries, and to provide day-to-day solutions towards an industrialised Kenya and region.

E-COMMERCE

Digital Department

Our digital department opened a new chapter for the company with an interactive website and an online shop. Customers can buy and receive products directly at their office, laboratory or home.

The platform lets local and international clients view our products, engage our in-house experts and find solutions to their needs. Goods are shipped to every country in Africa and beyond, and together our management and digital teams are working to serve every location in the world.

IMPACT

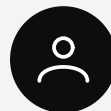

Partnerships, Community & Growth

Partnership with JICA

SMASSE PROJECT

We are proud to have partnered with the Japan International Cooperation Agency (JICA) in the implementation of the SMASSE project, supporting the strengthening of mathematics and science education.

Mwanafunzi Mwanasayansi

FREE SCIENCE KITS, SINCE 2021

Our community programme identifies needy schools and donates free science kits so that every student can enjoy a laboratory experience and an equal opportunity to learn science.

Active portfolio management

A key element of our future path is active portfolio management: we continue to identify and partner with brands of great global reputation, so that clients always have access to trusted, internationally recognised products.

OUR JOURNEY

From a Single Outlet to a Regional Enterprise

2010

Founded

First outlet opened along Duruma Road, Nairobi, serving customers in Kenya and East Africa.

2021

Giving back

Mwanafunzi Mwanasayansi launched, donating science kits to needy schools.

Today

Regional presence

Nairobi, Meru and Rwanda, 100+ employees, and an online shop shipping across Africa.

Next

Growth ahead

A scientists' laboratory at our Nairobi HQ, local manufacturing, and opening to investors.

OUR FOOTPRINT

Nairobi

Head office, Kenya

Meru

Branch, Kenya

Rwanda

International branch

WHY CHOOSE US

Why Partner with Ryonpoints

1

Entrepreneurial culture

Our entrepreneurial heritage empowers our people to challenge the status quo, bring fresh ideas to changing markets and products, and accelerate our digital transformation for our clients.

2

Committed to impact

Pioneers at heart, we work together for the good of present and future generations, improving the lives of millions through our products, services and solutions.

3

A multinational team

With over 100 employees from across East Africa, our diversity of backgrounds, skills, experience and creativity is the foundation of our success.

4

Careers that grow

We offer abundant opportunities to learn, share knowledge and mentor others, and take pride in seeing our people grow professionally and personally.

5

Creating more jobs

We aim to pioneer new solutions for sustainable development while strengthening our business, an ambition that extends to future local manufacturing of products.

LOOKING AHEAD

Guided by our vision and family values, we provide locally and internationally respected products that cover every scientific need. With deep product knowledge and a strong portfolio across education, higher learning, research, health and other sectors, we are optimistic that the next generation will take the enterprise to new levels, with a longer-term goal of opening the company to investors.
